

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. ## REPORT.

OFFICE OF COMPTROLLER OF THE TREASURY, }  
TRENTON, N. J., November 1, 1873. }

*To the Senate and General Assembly :*

In compliance with the law prescribing the duties of the Comptroller of the Treasury, the following report is presented of the financial condition of the State, an estimate of expenditures for the coming year, together with the transactions of this office for the fiscal year just closed.

At the date of my last annual report, the business of the department was conducted at No. 20 West State street, awaiting the completion of the alterations to the State House, which were then in progress. The rooms designed for the Comptroller were completed on the fifth of May, 1873, and have been occupied since that time. They are spacious and commodious, and although not absolutely faultless, are so great an advance upon any previous office facilities which the department has been permitted to enjoy, as to add very much to the comfort and convenience with which the business is transacted.

The permanent clerical force of the office remains the same as at the date of my last report, although during a portion of the year it has been necessary to employ additional assistance to perform some of the extra duties assigned to the department by the Legislature at its last session. On the third of March, 1873, an act was approved requiring the Comptroller to report to the Governor in the month of July following "the bill and date of approval or passage of every law approved since March 18, 1859, which has become inoperative and void for the reason that the parties interested therein had failed to pay the sum assessed thereon." The preparation of this report required a careful and thorough examination of all the private acts passed for the last fourteen years, and also an examination of the accounts of the Treasurer during that time, involving a large amount of labor, which necessitated a temporary addition to the clerical force of the department. The report was prepared and placed in the hands of the Governor, as required by law, and will be found printed in the appendix to this report. Another act, approved

Digitized by Google

April 3, 1873, required the Comptroller to cause to be compiled and submitted to the Legislature at its next session, a report "containing the names of all railroad and canal companies now in operation in this State, under acts of incorporation granted by the Legislature, together with the terms and provisions under which the said companies are required to pay tax to the State; what companies, if any, have failed to pay the taxes imposed upon them by their charters; the amount of property reported by the several railroad and canal companies for the year 1872; the amount and per centage of tax paid thereon, and what legislation, if any, is necessary and practicable to secure the payment of tax from any company or companies which may be delinquent, or whose charters are not sufficiently explicit to determine the amount of their annual tax."

The compilation, involving an enormous amount of labor, is now in course of preparation, and will be laid before you early in the approaching session.

The condition of the monetary affairs of the State at the close of the fiscal year is such as to afford us, as citizens of New Jersey, renewed reason for congratulation upon our financial prosperity.

The disbursements for the year have been greater than in any previous year in the history of the State, though the large appropriations made by the Legislature at its last session for necessary and commendable objects, and the natural increase in the current expenses of the State have combined to swell the expenditures to an amount not heretofore reached in any one year, nevertheless, as there has been a corresponding increase in the receipts, no serious difficulty has been found in meeting the demands upon the Treasury, and the balances remaining in bank to the credit of all the funds at this date, is greater than at the beginning of the year.

It is true that the receipts have not all been from the ordinary and regular sources of revenue. The estimates presented in my last report of expenditures for the year then beginning, were found to exceed the amount which would probably be derived from the revenue from regular sources, owing to the existence of unpaid balances of appropriations made in the previous year, and to the large amount required to advantageously continue the work throughout the year upon the new State Lunatic Asylum now in course of erection near Morristown. It was necessary, therefore, to temporarily augment the revenue to meet the existing emergency, and a simple and feasible means of accomplishing this was by making use of some of the securities then held by the State Fund. These securities represented the accumulations of past years in which the revenues of the State had exceeded the expenditures and were properly considered as a revenue to be drawn upon in time of need.

Accordingly, an act was approved on the fourth of April, 1873,

authorizing the Governor, Comptroller and Treasurer to dispose of any securities held by the State Fund whenever, in their judgment, or in the judgment of a majority of them, it might be expedient or necessary to do so to prevent embarrassment to the treasury. Among these securities was a bond for five hundred thousand dollars, given in 1869 to secure the payment of the amount due for lands under water, sold in the year 1868 to the United Railroad and Canal Companies of New Jersey. The payment of this amount was subsequently assumed by the Pennsylvania Railroad Company, and in June, 1873, that company was notified by this department that the payment of one-half the amount of the bond (\$250,000) would be required during the year. Pursuant to an arrangement between the department and the company, the amount was to be paid in eight monthly instalments, six of which [amounting in the aggregate to one hundred and ninety thousand dollars, (\$190,000,)] have been made up to the date of this report.

In addition to this, certain shares of the stock of the United Railroad and Canal Companies, which were among the State securities, have been hypothecated to the amount of one hundred and fifty thousand dollars (\$150,000), and a temporary loan of fifty thousand dollars (\$50,000) was effected through the Trenton Banking Company to relieve the treasury during the interval of stringency which is of regular annual occurrence between the close of the fiscal year and the receipt of the proceeds of the tax levy, which are generally received from the 20th to the 31st of December.

This hypothecation of stocks and the temporary loan make the immediate liabilities of the State two hundred thousand dollars, but as the taxes will be received from the counties in ample time to meet these payments when they fall due they may be considered as provided for.

The balances in bank to the credit of the several funds at the beginning of the fiscal year amounted to one hundred and one thousand four hundred and forty-nine dollars and twenty-five cents (\$101,449.25), and the whole receipts of the State for the year, including the proceeds of the loans already referred to, have amounted to one million seven hundred and sixty-five thousand five hundred and thirty-two dollars and one cent (\$1,765,532.01); the disbursements during the same time have amounted to one million six hundred and ninety-three thousand nine hundred and thirty-seven dollars and seventy-two cents (\$1,693,937.72), showing an excess of receipts over disbursements of seventy-one thousand five hundred and ninety-four dollars and twenty-nine cents (\$71,594.29). The balances in bank to the credit of all the funds at this date amount in the aggregate to one hundred and seventy-three thousand forty-three dollars and fifty-four cents (\$173,043.54).

The receipts have been from the following sources:

## WAR FUND.

The following statement shows the transactions for account of this fund during the year :

Balance in bank October 31, 1872,	-	-	-	-	-	\$2,776	82
Received from State taxes,	-	-	-	-	-	364,778	00
						\$367,554	82
Disbursements,	-	-	-	-	-	363,028	62
Balance in bank October 31, 1873,	-	-	-	-	-	\$4,526	20

The disbursements have been for the following objects :

For interest on the public debt,	-	-	-	-	\$164,778	00
For matured principal of public debt,	-	-	-	-	100,000	00
For Soldiers' Children's Home,	-	-	-	-	36,412	50
For Home for Disabled Soldiers,	-	-	-	-	39,708	47
For State military account,	-	-	-	-	21,462	35
For families of volunteers,	-	-	-	-	202	20
For discharged and deceased soldiers,	-	-	-	-	128	10
For Antietam Cemetery,	-	-	-	-	337	00
					<hr/>	
Total,	-	-	-	-	\$363,028	62

The decrease in the disbursements from this fund, as compared with the previous fiscal year, is twelve thousand six hundred and ninety-one dollars and twenty-six cents (\$12,691.26).

*Soldiers' Children's Home.*—The estimate presented in the last report from this department, of the probable amount required for the support of this institution, was thirty-five thousand dollars (\$35,000). The amount actually required, was one thousand four hundred and twelve dollars and fifty cents (\$1,412.50) more than this estimate, but showed a decrease as compared with the previous fiscal year, of five hundred and sixty-two dollars (\$562). It is probable that thirty-six thousand dollars (\$36,000) will be required for this purpose during the coming year.

*Home for Disabled Soldiers.*—The disbursements for the maintenance of this institution, show a decrease, as compared with the preceding year, of nine thousand seven hundred and eighty-five dollars and six cents (\$9,785.06). At the beginning of the year the total payments for this account had exceeded the aggregate appropriations in the sum of five thousand three hundred and sixty-two dollars and ninety-three cents (\$5,362.93), but the Legislature at the last session, made an additional appropriation of twenty-five thousand dollars (\$25,000), making the total appropriation for the support of the Home fifty thousand dollars (\$50,000). The disbursements for the year, together with the amount previously paid in excess of the appropriations, form an aggregate of forty-five thousand and seventy-one dollars and forty cents (\$45,071.40), and there accordingly remains at this date an undrawn balance of appropriations, amounting to four thousand nine hundred and eighteen dollars and sixty cents (\$4,918.60), which is carried to the credit of the account.

The amount to be provided to meet the appropriations for the support of this institution for the coming year is forty-five thousand dollars (\$45,000).

*Soldiers' State Bounty.*—The expenditures for this account during the year, having amounted to but three hundred and thirty dollars and thirty cents (\$330.30), can hardly be deemed of sufficient importance to be included in the estimate of probable expenditures for the coming year.

*National Cemeteries.*—Of the balance of appropriation to the Antietam Cemetery, there have been expended during the year, three hundred and thirty-seven dollars (\$337), leaving a balance still undrawn of one thousand seven hundred and forty-seven dollars and ten cents (\$1,747.10).

*State Military Account.*—For this account the expenditures are in excess of those of the preceding year in the sum of three thousand eight hundred and ninety-six dollars and eighty cents (\$3,896.80). It is estimated that twenty thousand dollars (\$20,000) will be required to meet the disbursements for this account during the coming year.

In addition to the expenditures for these several accounts, the War Fund is chargeable with the payments made upon the public debt, and it will be necessary for the Legislature to make provision at the approaching session, for such payments of principal and interest as are required by law to be made during the year 1875. Provision has already been made for the payment of that portion of the principal which falls due on the 1st of January, 1874, and also for the

payment of the interest accruing on that date, and on the 1st of July, 1874.

After the payment of January 1, 1874, the whole amount of the public debt will be two millions five hundred and ninety-six thousand three hundred dollars (\$2,596,300), of which amount one hundred thousand dollars (\$100,000) will be due on the first of January, 1875, and on that day there will also be payable six months' interest on the whole amount of the outstanding bonds. This interest will amount to seventy-seven thousand eight hundred and eighty-nine dollars (\$77,889), forming with the maturing principal an aggregate of one hundred and seventy-seven thousand eight hundred and eighty-nine dollars (\$177,889), due and payable on the first of January, 1875. On the first of July, 1875, there will have accrued six months' interest on the amount of the debt which will be then outstanding (\$2,496,300), which interest will amount to seventy-four thousand eight hundred and eighty-nine dollars (\$74,889). These sums of principal and interest form an aggregate of two hundred and fifty-two thousand seven hundred and seventy-eight dollars (\$252,778), which must be met during the year 1875, and provision must be made by the Legislature at the approaching session to meet such portion of this expenditure as is not already provided for.

To the Commissioners of the Sinking Fund is assigned the duty of disbursing this amount, and heretofore the amount necessary to meet the annual payments of maturing principal and interest on the public debt has been paid to the commissioners by the State Treasurer from the proceeds of the annual tax levy. But with a view to relieve the treasury from a portion of this burden, the Legislature passed an act at the session of 1873 providing that the annual income of the Sinking Fund should be applied to the payment of interest on the public debt, instead of being invested by the commissioners and added to the principal of that fund. The principal of the Sinking Fund amounted, at the date of the last report of the commissioners, to one million two hundred and sixty thousand and forty-four dollars and thirty-five cents (\$1,260,044.35), and the estimated amount of income to be derived from this amount may be stated in general terms at eighty-five thousand dollars (\$85,000), which, being applied to the payment of interest on the public debt, will leave one hundred and sixty-seven thousand seven hundred and seventy-eight dollars (\$167,778), to be supplied for this purpose from the State taxes.

This and the estimated sum required for the other War Fund disbursements (\$101,000) form an aggregate of two hundred and sixty-eight thousand seven hundred and seventy-eight dollars (\$268,778), to which may be added one thousand two hundred and twenty-two dollars (\$1,222) to cover such expenditures as may be required for the accounts of Soldiers' State Bounty and National Cemeteries, making an aggregate of two hundred and seventy thousand dollars (\$270,000) as the amount to be provided, by a State tax, to meet the

expenditures chargeable to the War Fund. This is about seventy thousand dollars (\$70,000) less than the sum which the last Legislature found it necessary to provide for this purpose.

### STATE FUND.

At the beginning of the fiscal year, the balance in bank to the credit of this fund was thirty-eight thousand and forty dollars and thirty-eight cents (\$38,040.38), and of the receipts during the year the amount belonging to and credited to the fund was one million two hundred and eighteen thousand one hundred and thirty-four dollars and eighty-four cents (\$1,218,134.84).

The present condition of the fund, as exhibited by the Treasurer's books, is shown by the following statement :

#### RECEIPTS.

From tax on railroads and other corporations, . . .	\$493,704 07
From dividends on stocks and interest on bonds held by the State, . . . . .	66,260 00
From fees for licenses and commissions, and assessments on private acts, . . . . .	19,259 73
From fines and forfeited recognizances, . . . . .	2,037 50

Balance in bank, October 31, 1872, . . . . .	38,040 38
	<hr/>
	\$1,256,175 22
Total disbursements for the year, . . . . .	1,154,669 48
	<hr/>
Balance in bank, October 31, 1873, . . . . .	\$101,505 74

The receipts of this fund from the regular and ordinary sources of revenue, have exceeded those of the preceding fiscal year, in the sum of fifty thousand eight hundred and thirty-one dollars and sixty-three cents (\$50,831.63), and including the amount derived from the extraordinary sources already referred to, the excess of receipts over those of the preceding year has been four hundred and forty thousand eight hundred and thirty-one dollars and sixty-three cents (\$440,831.63).

The disbursements have exceeded those of the preceding year in

1873.

the sum of two hundred and ninety-nine thousand and twelve dollars and twenty-seven cents (\$299,012.27).

At the date of my last report, the State Fund was indebted to the School Fund in the sum of seventy-five thousand dollars (\$75,000), being the amount of the appropriation for the support of public schools for the year 1872 (\$65,000), and a balance of ten thousand dollars (\$10,000) of the appropriation of the year before. During the fiscal year just closed, twenty thousand dollars (\$20,000) of this indebtedness have been paid off by transfer of this amount from the State Fund to the School Fund, leaving fifty-five thousand dollars (\$55,000) still unpaid. The appropriation for this purpose for the year 1873 (\$50,000) is still unpaid, making the whole amount of the indebtedness of the State Fund to the School Fund at this date, one hundred and five thousand dollars (\$105,000), which will be liquidated by transfer of the amount to the credit of the School Fund, upon receipt of the State taxes, which are payable in the month of December.

The purposes for which disbursements have been made from the State Fund during the year, and the particulars of the disbursements are shown by the following detailed statements:

*State Prison.*—For this account the expenditures have been:

For salaries,	-	-	-	-	-	\$53,655	12
For repairs,	-	-	-	-	-	11,079	33
For improvements,	-	-	-	-	-	14,454	86
For payments to discharged convicts,	-	-	-	-	-	1,200	00
Total,	-	-	-	-	-	\$80,389	21

The disbursements for this account show a decrease, as compared with the preceding year, of twenty-three thousand five hundred and sixty dollars and eighty-eight cents (\$23,560.88). In the amount paid as salaries, there has been an increase of about three thousand dollars (\$3,000), while for "repairs" and "improvements" the expenditures during the year, have been about twenty-six thousand dollars (\$26,000) less than in the year 1872.

These disbursements do not include any portion of the cost of maintaining the inmates of the prison, the proceeds of their labor having not only sufficed, for the last two years, to cover the whole of this expense, but also to produce a surplus, which has been paid into the treasury by the acting supervisor, and is included in the exhibit of revenues of the State. The amount of revenue from this source during the year 1872, in excess of expenditures, was twenty thousand dollars (\$20,000), and during the fiscal year just closed, the amount of surplus earnings of convicts paid into the treasury was thirty thousand dollars (\$30,000). For many years the maintenance

of convicts in the State Prison has been a source of considerable expense to the State, and it has been a question whether such use could be made of the convict labor as to make the institution practically self-supporting. Within the past two years, Col. W. R. Murphy, the Acting Supervisor, Dr. W. W. L. Phillips, the prison Physician, and (during a portion of the past year) Mr. Charles Wilson, the Keeper, have, by their united efforts, and by the most efficient administration of the affairs of their several departments, furnished a practical and most satisfactory solution to this problem.

Eighty-five thousand dollars (\$85,000) will probably be required for disbursements for this account during the coming year.

*Lunatic Asylum at Trenton.*—The amount of expenditures for this account during the year, was forty-two thousand three hundred and fourteen dollars and sixty cents (\$42,314.60), as follows :

For maintenance of County patients, . . . . .	\$29,542 12
“ “ Insane convicts, . . . . .	5,049 35
“ Salaries of officers, . . . . .	7,723 13
	<hr/>
	\$42,314 60

This shows an increase, as compared with the preceding year, of six thousand three hundred and ninety-seven dollars and twenty-nine cents (\$6,397.29). This increase is chiefly in the item of maintenance of county patients, and is due to the increased number of inmates in the Asylum.

It is estimated that forty-three thousand dollars (\$43,000) will be required to meet the disbursements for this account during the coming year.

*County Lunatic Asylums.*—An act passed at the session of 1873, provided for the payment from the State Treasury of “one dollar per week for each county patient confined in any County Lunatic Asylum established by the board of chosen freeholders of such county.” Under the provisions of this act there have been disbursed during the year three thousand three hundred and twenty-one dollars and eighty-five cents (\$3,321.85), the whole of which was paid to the counties of Hudson and Essex ; to Hudson county, one thousand nine hundred and ninety-three dollars (\$1,993), and to Essex county, one thousand three hundred and twenty-eight dollars and eighty-five cents (\$1,328.85).

It is difficult to estimate the amount which will be required for this object during the year to come, but it is probable that the disbursements will amount to not less than five thousand dollars (\$5,000).

*Lunatic Asylum at Morristown.*—The commissioners who have charge of the erection of the new State Asylum for the Insane, have drawn from the treasury during the year three hundred and eighty-three thousand dollars (\$383,000). At the date of my last report the undrawn balance of the appropriations made for this object, was one hundred and eighty-six thousand five hundred and twenty-six dollars and thirty-nine cents (\$186,526.39), and at the last session the Legislature made an additional appropriation of three hundred thousand dollars (\$300,000). The whole amount of the appropriations made for this object, is six hundred thousand dollars (\$600,000), and the amount already paid to the commissioners, is four hundred and ninety-six thousand four hundred and seventy-three dollars and sixty-one cents (\$496,473.61), leaving an undrawn balance of one hundred and three thousand five hundred and twenty-six dollars and thirty-nine cents (\$103,526.39).

It will be necessary to provide the means to meet this expenditure, and also to meet any further appropriation that may be made for this purpose at the approaching session.

*Transportation and Costs.*—For this account which includes the cost of conviction of State prisoners in the several counties, and the expenses of transferring them to the State Prison, the disbursements have amounted to twenty-six thousand two hundred and eighty-four dollars and fifty-three cents (\$26,284.53). These expenditures show an increase over those of the preceding year of one thousand seven hundred and two dollars and twenty-four cents (\$1,702.24). The amount paid for costs of conviction, was twenty-two thousand and twenty-five dollars and ninety-two cents (\$22,025.92), and for transportation to the prison, four thousand two hundred and fifty-eight dollars and sixty-one cents (\$4,258.61).

Prisoners have been forwarded from all the counties excepting Warren and Sussex, and the following schedule shows the amount paid to each county.

It is estimated that twenty-eight thousand dollars (\$28,000) will be required to meet the expenditures for the account during the coming year.

Within a year or two past, the auditing of bills of costs has become one of considerable difficulty. The acts under which they are paid, having been passed at intervals of some years, and apparently to suit certain exigencies and localities, are in some instances conflicting, and in many respects so far from explicit that the proper amount to be allowed as Sheriffs', Clerks' and Constables' fees is a subject of endless dispute between this department and the Sheriffs of at least some of the counties. The difficulties which surround the settlement of this class of bills are so great that I respectfully recommend that some action be taken by the Legislature at the coming session to establish a scale of fees and allowances which will be uniform throughout the State, and will be so full and explicit as to give no further occasion for interminable discussions between the Comptroller and the Sheriffs as to the proper construction of the law.

*Printing.*—For this account, the expenditures during the year have amounted to one hundred and two thousand three hundred and five dollars and ninety-seven cents (\$102,305.97), though this amount has not been wholly paid for printing done during the year, but covers a portion of the printing expenses of the year before, which were thrown into the fiscal year just closed by reason of the failure of the Legislature of 1872 to pass the bill authorizing the public printing to be done. The portion of the expenditures properly belonging to 1872 is shown by the following statement :

For Senate Journal of 1872,	-	-	-	-	\$4,370 99
“ Assembly Minutes of 1872,	-	-	-	-	4,547 42
“ Legislative Documents of 1872,	-	-	-	-	1,342 37
“ Record of New Jersey Soldiers in the Revolution- ary War,	-	-	-	-	252 58
					<u>\$10,513 36</u>

The disbursements for printing belonging to the year ending October 31st, 1873, have been as follows :

For current printing,	-	-	-	-	-	\$14,429 71
For pamphlet laws,	-	-	-	-	-	8,792 78
For Senate Journal,	-	-	-	-	-	4,022 58
For Assembly Minutes,	-	-	-	-	-	4,567 54
For publishing laws in newspapers,	-	-	-	-	-	58,276 95
For proclamations and miscellaneous,	-	-	-	-	-	1,703 05
						<hr/>
						\$91,792 61

The amount charged to the printing account in 1872 was seventy-three thousand nine hundred and forty-five dollars and thirty-three cents (\$73,945.33), and adding to this the amount of the disbursements in 1873 which belonged to the former year, and which amounted to ten thousand five hundred and thirteen dollars and twenty-six cents (\$10,513.26), it will be seen that the actual increase of expenditures for 1873 over those for 1872 is much less than appears from a mere statement of the disbursements, having been but seven thousand three hundred and thirty-four dollars and two cents (\$7,384.02).

The principal item of the printing expenditures is for advertising the laws in the newspapers, this having during the past year amounted to upwards of fifty-eight thousand dollars (\$58,000)—an expense unquestionably out of all proportion to the benefits derived from such publication. I called attention to this subject in my last annual report, and suggested some means of avoiding this expense which, already so great, is increasing from year to year. By law, each paper in the State which has had an existence of one year, is entitled to publish all the general and special public acts passed at each session. The number of papers published in the State increases with each year, and as a consequence there is a great annual increase in this item of expenditure, the increase in 1873 over 1872 having been upwards of fourteen thousand dollars (\$14,000).

A great many methods of avoiding a portion of this expense have been suggested, none of which have proved acceptable to former Legislatures, but the fact remains that a large portion of the money expended yearly for this purpose could and should be saved, and the question of how to economize in this particular branch of the State expenditures is one well worth your serious and careful consideration.

Should no measures be adopted at the approaching session to reduce the expenditures for this account the estimated sum which will be required to meet the disbursements during the coming year is ninety thousand dollars (\$90,000).

*Militia.*—The expenditures during the year for this account have amounted to sixty-six thousand one hundred and seventy-one dollars

and twenty-three cents (\$66,171.23), being an increase as compared with the preceding year of thirty-three thousand four hundred and eighteen dollars and eighty-eight cents (\$33,418.88). The disbursements have been for the following objects :

For allowance in lieu of armory rent,	-	-	-	\$34,893	44
For pay of officers,	-	-	-	131	34
For expenses of Camp Monmouth,	-	-	-	16,578	96
For miscellaneous purposes,	-	-	-	14,567	49
					<hr/>
					\$66,171 23

As will be seen the principal portion of the increase for the year is due to the expense attending the encampment of the Second Brigade of the National Guard at Cape May in the month of August, and to the purchase of articles used by the troops during the encampment and afterward turned in to the State Arsenal.

In the absence of any similar cause to increase the militia expenditures during the coming year it is estimated that the amount required for this purpose will be forty thousand dollars (\$40,000).

*State House Expenses.*—The disbursements for this account during the year have amounted to twenty thousand six hundred and fifty-two dollars and sixty-four cents (\$20,652.64). The decrease in these expenditures as compared with the preceding year is fourteen thousand five hundred and seventy-five dollars and sixty-nine cents (\$14,575.69), but they have nevertheless exceeded the amount which it was estimated would be required for this purpose. Since the enlargement of the State House and the increase in the number of rooms the annual expense of warming the building, lighting and keeping it in order and repair is greatly increased, and it is estimated that during the coming year fifteen thousand dollars (\$15,000) will be required to meet these expenditures.

*State House Extension.*—At the date of my last annual report the undrawn balance of the appropriations made for the purpose of erecting an addition and making repairs to the State House was thirty-four thousand dollars (\$34,000), and at the last session the Legislature made a further appropriation of forty-three thousand dollars (\$43,000) for completing the unfinished repairs and improvements then in progress, for fitting up the State Library rooms, and for making necessary repairs to the roof of the State House. The commissioners have drawn fifty-seven thousand dollars (\$57,000), leaving an undrawn balance of twenty thousand dollars (\$20,000), which amount, in the absence of any further appropriations for this object, is presented as the estimate for the coming fiscal year.

*Reform School.*—For this account during the year the disbursements have been twenty-seven thousand, eight hundred and ninety-seven dollars and eighty-eight cents (\$27,897.88). The usual annual appropriation for the maintenance of this institution is twenty thousand dollars (\$20,000), and this sum was appropriated at the session of 1873, but there was a further appropriation made of ten thousand dollars (\$10,000), for the “erection and furnishing of a new family house, and for grading and planting the grounds.”

At the date of my last report there was due the institution a credit balance of the preceding year amounting to eight thousand dollars (\$8,000), and undrawn balances of former appropriations, amounting to four thousand eight hundred and ninety-seven dollars and eighty-eight cents (\$4,897.88), making an aggregate of credits, including the appropriation of 1873, of forty-two thousand eight hundred and ninety-seven dollars and eighty-eight cents (\$42,897.88).

Deducting from this the disbursements during the past year, there remains to the credit of the institution the sum of fifteen thousand dollars (\$15,000).

As this undrawn balance will doubtless be required during the year, and the usual annual appropriation will probably be asked for, the estimate presented for the coming year is forty thousand dollars (\$40,000).

*Industrial School for Girls.*—At the last session of the Legislature an appropriation of thirty-five thousand dollars (\$35,000) was made “to enable the Trustees of the State Industrial School for Girls to erect suitable buildings for the institution, to furnish the same, and for the maintenance of the family.” Of the appropriation of the year before (\$5,000) there had been but two thousand five hundred dollars (\$2,500) drawn at the date of my last report, and during the fiscal year just closed, there have been paid to the trustees twenty-five thousand five hundred dollars (\$25,500), leaving an undrawn balance to the credit of the institution of twelve thousand dollars (\$12,000). For this amount it will be necessary to make provision as well as for any further amount which may be appropriated for the uses of the institution during the coming year.

*Legislature.*—The expenses of the last legislative session amounted to sixty-seven thousand and thirty-eight dollars and seventy-four cents (\$67,038.74), being an increase over the disbursements for this account in the preceding year of eight thousand seven hundred and thirty-six dollars and nine cents (\$8,736.09). This increase is due to the necessity for the employment of additional officers in the clerical department to perform the duties consequent upon the increased amount of legislative business—in increase which is perfectly natural, and may be expected to continue from year to year, unless it should

be deemed advisable to adopt a system of general legislation. In my last report I took occasion to suggest some measures for reducing the expenses of the legislative session, which suggestions I still think worthy of consideration.

Sixty-five thousand dollars (\$65,000) may be presented as the amount which will probably be required to meet the expenditures for this account during the coming year.

*Support of Idiots, Mutes and Blind Persons.*—The disbursements during the year for this account have amounted to thirty-eight thousand one hundred and twenty-seven dollars and seventy-four cents (\$38,127.74). This exceeds the amount of expenditures for these purposes in the preceding year, in the sum of one thousand five hundred and thirty-one dollars and thirty-five cents (\$1,531.35).

Previous to the session of 1873 the several statutes under which these disbursements were made, limited the amount which might be expended in any one year to twenty-four thousand dollars (\$24,000), but as the increase from year to year in the number of pupils to be maintained rendered necessary the removal of this limit, the Legislature, at its last session, repealed the acts confining the expenditures within prescribed bounds, and passed a general act, appropriating an annual sum of three hundred dollars for the support of each pupil who, upon making application, should be deemed by the Governor, properly entitled to the benefits of the act.

The different institutions to which payments have been made during the year are as follows:

To the New York Blind Institution for support of twenty-eight pupils,	\$7,188 87
To the Pennsylvania Blind Institution for support of twenty-two pupils,	5,592 04
To the New York Institution for the Deaf and Dumb,	10,052 58
To the Pennsylvania Institution for the Deaf and Dumb,	5,422 25
To the New York Institution for Improved Instruction of Deaf Mutes,	1,260 83
To the LeCentreulx St. Mary's Institution for the Deaf and Dumb, at Buffalo, N. Y.,	225 00
To the Pennsylvania Training School for Feeble-minded Children,	8,086 17
A special appropriation to furnish books for the blind of this State,	300 00
Total,	<hr/> \$38,127 74

It is estimated that forty thousand dollars (\$40,000) will be required to meet the disbursements for this account during the coming year.

*Salaries and Fees.*—The disbursements for this account during the year have been forty-six thousand four hundred and forty dollars and ninety cents (\$46,440.90). This exceeds the amount of expenditures charged to the account in the preceding year in the sum of five thousand six hundred and forty dollars and eighty-three cents (\$5,640.83), an excess partly due to the fact that some of the salaries of officers and employees of the State were increased by acts of the last Legislature, and partly to the fact that it has been deemed advisable to charge to the State Fund Account some of the salaries heretofore charged to the War Fund.

Estimate for the coming fiscal year forty-five thousand dollars (\$45,000).

*Salaries of the Judiciary.*—Disbursements during the year, sixty-one thousand nine hundred and fifty-nine dollars and thirty-four cents (\$61,959.34), being nine hundred and forty-nine dollars and thirty-four cents (\$949.34) more than in the preceding year. Sixty-two thousand dollars (\$62,000) will doubtless be required for this purpose during the coming year.

*Geological Survey.*—Expenditures during the year, five thousand seven hundred and forty-three dollars and seventy-six cents (\$5,743.76). Increase as compared with the preceding year, three hundred and thirty dollars and seventeen cents (\$330.17). It is estimated that six thousand dollars will be required for the expenses of the commission during the year.

*Education.*—The expenditures from the State fund for educational purposes during the year have been as follows:

On account of appropriation to public schools, -	\$20,000 00
To the State Normal School, -	25,000 00
To the Farnum Preparatory School at Beverly, -	1,200 00
For expenses of the State Board of Education and	
County Institutes, -	3,357 78
For repairs of Normal School, -	1,022 12
Total, -	\$50,579 90

This sum is six thousand two hundred and seventy-three dollars and sixty-five cents (\$6,273.65) more than the disbursements for this account during the preceding year, although in some of the items of expenditure there has been considerable decrease. The amount paid to the Farnum Preparatory School was simply the amount of the annual appropriation to this Institution, while in 1873 there was paid a special appropriation of three thousand dollars (\$3,000). The expenses of the State Board of Education and County Institutes, show an increase of one thousand six hundred and forty-seven dollars and

sixty-eight cents (\$1,647.68), and the cost of repairs to the Normal School show a decrease of two thousand three hundred and seventy-four dollars and three cents (\$2,374.03).

The amount paid to the Normal School is ten thousand dollars in excess of the regular annual appropriation to this Institution. In 1872 an act was passed making an annual appropriation of the sum of five thousand dollars (\$5,000), to constitute a scholarship fund, to be applied to the establishment of fifty scholarships of one hundred dollars each; and in 1873 an act was passed providing that, until the contemplated system of scholarships should be perfected by the board of trustees of the school, the amount of the appropriation for the scholarship fund should be paid "for such purposes connected with the State Normal School and boarding-house property belonging to the State," as the trustees might deem for the best interests of the State and the advantage of the cause of education. In pursuance of this act the amount of the appropriations for 1872 and 1873 has been paid to the treasurer of the board of trustees during the fiscal year just closed, and makes the disbursements to that Institution twenty-five thousand dollars (\$25,000). The practical effect of this act will be to make the annual appropriation to the Normal School, twenty thousand dollars (\$20,000), and this is the amount for which provision must be made.

The annual appropriation of one hundred thousand dollars for the support of public schools is made partly from the State Fund, and partly from the income of the School Fund; the law heretofore requiring the payment of thirty-five thousand dollars (\$35,000) from the annual School Fund income, and the payment of sixty-five thousand dollars (\$65,000) from the State Fund, but owing to the large accessions to the School Fund within a few years past, it was deemed advisable to relieve the State Fund from a portion of this burden; and, at the session of 1873, an act was passed providing that each fund should contribute fifty thousand dollars (\$50,000) of the amount.

This appropriation for the fiscal year just closed has not yet been distributed, and at the date of my last report there was a balance of appropriations of former years which had not been transferred to the School Fund. Of this amount, twenty thousand dollars (\$20,000) have been transferred during the year, leaving a balance still due upon the appropriations of 1872 and 1873, of one hundred and five thousand dollars.

It will be necessary to provide for the payment of this balance, and also for the appropriation for the coming year, and for the ordinary expenditures for the year. The amount estimated as necessary for this purpose is:

Balance of appropriations of 1872 and 1873, -	-	\$105,000 00
Appropriation for 1874, -	-	50,000 00
Expenditures for 1874, -	-	26,000 00

---

\$181,000 00

*Free School Libraries.*—To meet the applications during the year for the benefits of the act to encourage the formation of libraries in the public schools, the sum required has been one thousand seven hundred and seventy dollars (\$1,770), being two thousand and seventy dollars less than the amount disbursed for this account in the preceding year. It is not possible to estimate with any degree of accuracy the amount that will be required for this purpose during the coming year, but it is probable that the expenditures will not exceed two thousand dollars (\$2,000).

*Riparian Commission.*—Disbursements during the year for expenses of the commission and salaries of the commissioners, eleven thousand nine hundred and fifty-five dollars and eighty-six cents (\$11,955.56), an increase of one thousand six hundred and seventy-two dollars and thirty cents (\$1,672.30). Estimate for the coming year, twelve thousand dollars (\$12,000).

*Revision of Statutes.*—The expenses attending the revision of the statutes of the State by the commission established for that purpose under an act passed in 1871, have amounted during the year to one thousand three hundred and eighty-four dollars and fifty-four cents (\$1,384.54). The work is still unfinished, and there will doubtless be further disbursements required for the purpose during the year, but no accurate estimate can be formed of the amount which will be needed.

*Pensions.*—The amount disbursed for this account during the year was four thousand two hundred and thirty-four dollars and seventy-four cents (\$4,234.74), being five hundred and three dollars and twelve cents (\$503.12), less than in the year before. Exclusive of any pensions which may be granted at the coming session, the estimated amount for the year to come is four thousand five hundred dollars (\$4,500).

*Preservation of Records.*—At the date of my last report there was remaining in the treasury an undrawn balance of the appropriation made to enable the State Historical Society to procure from London certain documents relating to the early history of the State. This balance was fifteen hundred dollars (\$1,500), which has been paid to the treasurer of the Historical Society during the year.

*Inspection of Fisheries.*—During the year the cost of protecting the fishing interests of the State, in accordance with the several acts passed for that purpose, has amounted to one thousand eight hundred and thirty dollars and forty-two cents (\$1,830.42), which includes the salaries and expenses of the several fish wardens, and the necessary expenses of the Commissioners of Fisheries. Probably two

thousand dollars (\$2,000), will be required for this purpose during the coming year.

*Agriculture.*—An act of the Legislature passed in 1872, provided for the establishment of a State Board of Agriculture, and for the payment of certain necessary expenses consequent upon the performance of the duties assigned to them. Under the provisions of this act, there have been disbursed during the year two hundred and forty-two dollars and ten cents (\$242.10).

*Increase of Revenue.*—At the session of 1873 the Legislature provided for the refunding of taxes collected from certain corporations under a law passed in the year 1869 entitled "An act to increase the revenues of the State," stating, as the reason for such reimbursement, that "grave doubts were entertained of the constitutionality of said law." These taxes when collected were credited to an account called "Increase of Revenue," and when refunded, were charged to the same account. The amount refunded during the year was six hundred and twenty-three dollars and thirty-one cents (\$623.31). Of the amount paid into the treasury under the original act there remains still to be refunded the sum of one hundred and thirteen dollars and seventy-five cents (\$113.75).

The farther disbursements from the State Fund during the year have been for the following objects: For law and equity reports nine thousand one hundred and thirty-five dollars and thirty-two cents (\$9,135.32); for stationery and postage, nine thousand and forty-one dollars and eight cents (\$9,041.08); for interest, two thousand five hundred and seventy-one dollars and seventy-eight cents (\$2,571.78); for binding, two thousand three hundred and ninety-six dollars and thirty cents (\$2,396.30); for incidentals, one thousand five hundred and seventy-nine dollars and seventy-four cents (\$1,579.74); for wrecks, nine hundred and ninety-nine dollars and seventy-five cents (\$999.75); for requisitions, eight hundred and eighty-two dollars and seventy-two cents (\$882.72); for expenses of the constitutional commission, three hundred and twenty-four dollars and eighty-five cents (\$324.85); for repairs to the State Arsenal, two hundred and thirty-two dollars and sixty-six cents (\$232.66); for costs on forfeited recognizances, seventy-one dollars and eighty-two cents (\$71.82); for expenses consequent upon the escape of convicts from the State Prison, sixty-nine dollars (\$69.00); and for the settlement of some unpaid bills of inauguration expenses, fifty dollars and sixty cents (\$50.60).

### SCHOOL FUND.

The receipts of this fund during the year have been from principal of loans paid off, fifty-two thousand eight hundred and twenty-

nine dollars and ninety-three cents (\$52,829.93) and from the regular income of the fund one hundred and nineteen thousand two hundred and seventy-nine dollars and twenty-four cents (\$119,279.24), making a total of one hundred and seventy-two thousand one hundred and nine dollars and seventeen cents (\$172,109.17), which with the balance in bank at the beginning of the fiscal year (\$60,377.34) formed an aggregate of credits to the fund of two hundred and thirty-two thousand four hundred and eighty-six dollars and fifty-one cents (\$232,486.51). The disbursements have amounted to one hundred and sixty-eight thousand five hundred dollars (\$168,500), consisting of investments to the amount of sixty-eight thousand five hundred dollars (\$68,500) and payment toward the support of public schools of one hundred thousand dollars (\$100,000). The balance in bank to the credit of the fund at this date is sixty-three thousand nine hundred and eighty-six dollars and fifty-one cents (\$63,986.51), and there is due this fund from the State Fund the sum of one hundred and five thousand dollars (\$105,000), so that the actual credit balance of the fund at this date, is one hundred and sixty-eight thousand nine hundred and eighty-six dollars and fifty-one cents (\$168,986.51). The securities held by the Treasurer, belonging to this fund amount to seven hundred and forty-eight thousand four hundred and eighty-three dollars and fifty cents (\$748,483.50).

### STATE LIBRARY FUND.

The transactions for account of this fund during the past fiscal year, and the present condition of the fund are shown by the following statement:

#### RECEIPTS.

From State Taxes,	-	-	-	-	-	-	-	-	\$2,750 00
From Rents,	-	-	-	-	-	-	-	-	800 00
									<hr/>
Balance in bank October 31, 1872,	-	-	-	-	-	-	-	-	\$3,550 00
									233 10
									<hr/>
									\$3,783 10
Disbursements during the year,	-	-	-	-	-	-	-	-	779 62
									<hr/>
Balance in bank October 31, 1873,	-	-	-	-	-	-	-	-	\$3,003 48

It will be necessary to make provision for the amount of the annual appropriation to this fund, viz: two thousand seven hundred and fifty dollars (\$2,750.00).

## AGRICULTURAL COLLEGE FUND.

The transactions for account of this fund are merely the collection of the interest upon the securities held by the State Treasurer for the use of the fund, and the payment of the proceeds to the trustees of Rutgers College. The amount of these securities is one hundred and sixteen thousand dollars (\$116,000), and the annual income which they produce is six thousand nine hundred and sixty dollars (\$6,960), which has been collected and paid over within the year as usual.

## BANK NOTE REDEMPTION FUND.

There have been no transactions during the year for account of this fund. The balance in bank to the credit of this fund is twenty-one dollars and sixty-one cents (\$21.61), as at the date of my last report.

## STATE SCHOOL TAX.

The special tax for the support of public schools which was levied and collected during the year, amounted to one million one hundred and sixty-eight thousand eight hundred and three dollars and eight cents (\$1,168,803.08).

This tax is two mills upon each dollar of the taxable property in the State as returned by the several boards of assessors for the year 1871. It was apportioned to the several counties in the spring of 1872, was paid into the treasury in January, 1873, and was re-apportioned to the counties and paid to them in the same month in proportion to the number of children between the ages of five and eighteen years.

The following schedule shows the amount of tax paid by each county and the amount re-paid to each under the apportionment made by the State Superintendent of Public Instruction, in accordance with the data furnished him in the school census of 1872 :

Counties.	Tax Paid.	Apportionment.
Atlantic, - - - -	\$8,851 34	\$20,835 19
Bergen, - - - -	52,539 68	38,558 95

						\$1,168,803	
						08	

The proceeds of this tax exceeded the amount levied for the year 1872 in the sum of seventy-one thousand three hundred and twenty-one dollars and thirty-six cents (\$71,321.36) owing to an increase in the amount of ratables of nearly thirty-six millions of dollars (\$36,000,000). In apportioning this tax to the several counties according to the number of children as shown by the school census, it was found that in the case of thirteen counties the amount to be paid them exceeded the amount of their tax. The amount of excess received by each of these counties is shown by the following schedule :

Atlantic,	-	-	-	-	-	-	\$11,983	85
Burlington,	-	-	-	-	-	-	14,666	80
Camden,	-	-	-	-	-	-	16,585	72

Warren,	-	-	-	-	-	-	-	207 65
								<hr/>
								\$118,330 91

The amount of tax levied for school purposes in the year 1873 was one million two hundred and seven thousand three hundred and thirty-one dollars (\$1,207,331), an increase of thirty-eight thousand five hundred and twenty-seven dollars and ninety-two cents (\$38,527.-92) over the amount levied in the preceding year. This increase is due to an increase of about nineteen millions of dollars (\$19,000,000) in the valuation of the property on which the tax was levied.

The amount of tax to be paid by each county and the portion allotted to each for school purposes is exhibited by the following schedule :

	Tax to be paid.				Apportionment.

This tax is levied upon the ratables as returned from the boards of assessors of the several counties for the year 1872, and which amounted in the aggregate to six hundred and three millions six hundred and sixty-five thousand four hundred and ninety-seven dollars (\$603,665,497).

It is payable in the month of January, 1874, and will be distributed as soon as received, in accordance with the above apportionment.

The law under which this tax is levied and distributed has now been in operation for three years, and the evidences of its beneficial effect upon the cause of education throughout the State accumulate from year to year. The advantages which were claimed for it over the former system of taxation for school purposes have been more than realized, and the admirable working of the system is such as to commend it to all excepting the few who still base their objections to it upon the fact that some counties pay as tax a greater amount than they receive. This objection, however, involves a practical denial of the right of the State to tax property for educational purposes, since if this right is admitted it is difficult to conceive of any good reason why the accident of locality should be permitted to determine the application of the proceeds of such tax. If the property-holding citizen is liable to be called upon by the State to contribute, in proportion to his wealth, to the support of public schools, he is under that liability because he is a citizen of the State, and although a tax levied by county or township authority, is only to be used for the purposes of the county or township within which it is raised, a tax levied by State authority is not and should not be subject to such restrictions. To claim that the money raised as tax upon the property in each county should be expended within the county limits, is to practically deny to the State control of the taxes raised under its authority.

#### ESTIMATES.

The following statement exhibits the amounts estimated as necessary to meet the disbursements from the several funds during the coming fiscal year :

For civil account :

State Prison, - - - - -	\$ 85,000 00
Lunatic Asylum at Trenton, - - - - -	43,000 00
County Lunatic Asylums, - - - - -	5,000 00

		<b>\$270,000 00</b>
Total, -	-	<b>\$1,245,000 00</b>

At the session of 1873, the Legislature authorized the expenditure of fifteen thousand dollars (\$15,000) for statues of Richard Stockton and Major General Philip Kearny, to be contributed to the National Gallery of Statuary at Washington, which amount has not been paid. There was also an act passed authorizing the purchase of two hundred copies each of certain law and equity reports upon their being reprinted; an appropriation of ten thousand dollars (\$10,000) for the erection of a monument to New Jersey soldiers interred in the National Cemetery at Beverly, is still unpaid; and by other acts of the last Legislature, sundry expenditures were authorized amounting in the aggregate to a considerable sum which, however, cannot be accurately stated, as these expenditures are contingent upon services rendered and expenses incurred, but it is probable that to cover the

expenditures for the year not embraced in the above schedule of estimates, not less than fifty-five thousand dollars (\$55,000) will be required. The amount therefore, requisite to meet the demands upon the treasury during the year may be estimated as one million three hundred thousand dollars (\$1,300,000) exclusive of any further appropriations that may be made at the coming session of the Legislature.

The ordinary sources of revenue of the State produced during the year just closed, five hundred and eighty-one thousand two hundred and sixty-one dollars and thirty cents (\$581,261.30), to which was added thirty thousand dollars (\$30,000) from the earnings of convicts in the State Prison.

The amount drawn from each source is exhibited by the following statement :

From tax on Railroads and other Corporations,	\$493,704 07
From dividends on stocks, and interest on bonds held by the State,	66,260 00
From license and fees,	9,559 73
From assessments on private acts,	9,700 00
From fines and forfeited recognizances,	2,037 50
	<hr/>
	\$581,261 30
From surplus earnings of convicts,	30,000 00
	<hr/>
	\$611,261 30

There was also received during the year, as the proceeds of the State tax levy, five hundred and eighty-four thousand four hundred and one dollars and fifty-four cents (\$584,401.54), making the total receipts for the year of what may be properly termed revenue, one million one hundred and sixty-five thousand six hundred and sixty-two dollars and eighty-four cents (\$1,165,662.84). This tax was levied upon the ratables as returned from the several counties for the year 1871, which amounted to five hundred and eighty-four millions, four hundred and one thousand five hundred and forty dollars (\$584,401,540).

The ratables as returned for the year 1872, showed an increase over the preceding year of nineteen millions two hundred and sixty-three thousand nine hundred and fifty-seven dollars (\$19,263,957), the whole amount returned as liable to taxation being six hundred and three millions six hundred and sixty-five thousand four hundred and ninety-seven dollars (\$603,665,497). The revenue to be derived from tax on this amount was included in the estimates of anticipated receipts presented in my last annual report, and amounted to nine hundred and five thousand four hundred and ninety-eight dollars

and twenty-four cents (\$905,498.24) the tax having been levied at the rate of one and a half mills on the dollar.

The basis of the tax levy for the coming year will be the returns of ratables from the several counties for the year 1873. These amount to six hundred and twelve millions seven hundred and ninety-six thousand one hundred and six dollars (\$612,796,106), showing an increase as compared with the year 1872, of nine millions one hundred and thirty thousand six hundred and nine dollars (\$9,130,609), and should the tax levy be made at the same rate as last year, the proceeds will amount to nine hundred and nineteen thousand one hundred and ninety-four dollars and seventeen cents (\$919,194.17).

The income from the ordinary sources of revenue cannot be expected to vary greatly from the amount produced by them in the last fiscal year, and may be stated at six hundred thousand dollars (\$600,000), which with the proceeds of the State tax levy, at the rate of one and a half mills on the dollar, will make the entire revenue of the State one million five hundred and nineteen thousand one hundred and ninety-four dollars and seventeen cents (\$1,519,194.17); a sum sufficient to meet the anticipated disbursements and furnish a surplus of two hundred and nineteen thousand one hundred and ninety-four dollars and seventeen cents (\$219,194.17) toward the payment of such additional appropriations as may be made at the coming session.

Should it be deemed advisable to levy the tax for the year at the rate of one mill on the dollar, the income from this source and from the other and regular sources of State revenue as estimated will amount to one million two hundred and twelve thousand seven hundred and ninety-six dollars and eleven cents (\$1,212,796.11), or eighty-seven thousand dollars (\$87,000) less than the anticipated expenditures, and in this case it will be necessary to adopt some measures to supplement the revenue to meet this deficiency as well as to cover any additional expenditures which the Legislature may see fit to authorize.

The principle object for which any considerable expenditure will be required, beyond the estimates already presented, will be the prosecution of the work upon the Lunatic Asylum now in course of erection near Morristown. A considerable sum will doubtless be needed to carry on the work during the year according to the plans adopted by the commissioners, and should an appropriation be made similar to that of last year (\$300,000) it will be necessary to either levy the State tax at the rate of one and a half mills on the dollar, or to augment the revenue by the means adopted during the last fiscal year, viz; the sale or hypothecation of State securities. The former course is open to some objections, and the latter is recommended as, in my view, the most judicious means of accomplishing the desired end. These securities, as already stated, represent the accumulation of past years, when the current expenses of the State were far below

the revenue, and it may be questioned whether any better use can be made of them than to bring them forth from the treasurer's safe and apply them to the purpose of supplementing the State revenue to meet specific exigencies. These securities consist principally of stocks of the United Railroad and Canal Companies, the income from which is at the rate of ten per centum per annum, and when pledged as security for loans, the dividends are paid to the State, while interest is paid upon the loans at the rate of seven per centum.

The effect of the acts of the last Legislature, to permanently relieve the treasury of a portion of its burden, will be felt during the coming year to some extent. The supplement to the Sinking Fund act, recommended in my last report, and approved April 3, 1873, discontinuing the re-investment of the annual income of that fund, and appropriating the income toward the payment of interest upon the public debt, will admit of the retention in the treasury and the application to State expenditures of about eighty-five thousand dollars (\$85,000), annually; and the act changing the proportions of the contribution of the State Fund to the annual appropriation for the support of public schools relieves that fund from the annual payment of fifteen thousand dollars (\$15,000). It may be deemed, therefore, that by these two wise and timely acts, a permanent addition has been made to the annual income of the State Fund of one hundred thousand dollars (\$100,000.) A further addition may with propriety and advantage be made by the passage of a law authorizing the payment from the School Fund of certain expenditures connected with the support of educational institutions, and especially the annual appropriation of twenty thousand dollars (\$20,000), to the Normal School, and the annual expenses of the repairs of that institution. This is properly a School Fund disbursement, and there seems to be no good reason why it should be drawn from the heavily burdened State Fund rather than from the ample resources of the School Fund. This can be accomplished by a supplement to the act which provides that the proceeds of the sale and lease of lands under water shall be paid into the School Fund, and the passage of such a supplement is respectfully recommended.

The following schedule shows the amount of real and personal property subject to taxation in each county for the year 1873, as returned by the several boards of assessors, and exhibits also the increase or decrease in each county as compared with the valuation of 1872 :

## COMPTROLLER'S REPORT.

Union .....	28,603,000	31,014,600	2,411,600	.....
Warren .....	22,928,276	23,752,755	824,479	.....
	<u>\$603,665,497</u>	<u>\$612,796,106</u>	<u>\$16,013,865</u>	<u>\$6,883,256</u>

As will be seen from this schedule there has been, in thirteen counties an increase in the valuation over that of 1872 of upwards of sixteen millions dollars (\$16,000,000), while in the remaining eight counties the aggregate decrease, as shown by the returns of the boards of assessors, has been nearly seven millions (\$7,000,000), so that the increase in the total valuation of taxable property in the State, as compared with 1872, has been but nine millions one hundred and thirty thousand six hundred and nine dollars (\$9,130,609).

It is difficult to explain the decrease in the valuation in the eight counties upon any other hypothesis than that of the failure of the assessors to perform their duties according to law. The law requires them to assess all the property in their respective townships or wards "at its full and fair valuation, at such price as it would sell for at a fair and bona fide sale by private contract." This requirement of the statute is seldom, probably never, complied with.

I have taken occasion in two previous annual reports to call the attention of the Legislature to the objections to the present system under which property is valued for purposes of taxation, and the subject is one of such importance that I again respectfully urge upon your consideration the necessity for the adoption of some measures which will correct the existing and growing evils of the system.

Every effort seems to be made to reduce the valuation of property to the lowest possible point in order that each county or township may escape a portion of the tax, and the legitimate result of a persistence in this practice will be to prevent the natural increase of the State revenue unless the evil shall be counteracted by a change in

the mode of levying the State tax. In calling attention to this subject in my last report for the year 1871, I used the following language, which is equally applicable to-day :

"The feeling is by no means rare among property owners, that if their property is assessed at its full value their taxes will be raised in proportion ; the fact being overlooked that the amount of revenue to be raised is not affected by the amount of taxable property, and that as the amount of property increases the rate of taxation can be lowered. Governed by this mistaken idea, they are tempted to make low returns to the assessor, and the assessors, influenced by various local interests, accept these returns, and the result is that a large portion of the real estate is assessed at probably little more than half of its actual value.

Doubtless an assessor is often induced to make or accept a low valuation of property by his knowledge of the general practice, and the fear that his township will suffer in the apportionment of taxes if the property therein is returned at a higher average value than that of the other townships of the same county.

This is a reasonable fear, for under the present system, all the townships in any one county, whose assessors may be disposed to obey the law and assess the property at its full value, are at the mercy of any one assessor who may not be so disposed.

The same lack of uniformity which works injustice between townships in the apportionment of county taxes, has a like effect between counties in the apportionment of State taxes. Those which make the fairest returns have the largest share of the tax to pay, and the system actually offers a premium on dishonesty."

By the provisions of "a further supplement to 'an act concerning taxes,'" approved April 11, 1866, each assessor is required to make oath that he has valued all the property in his township at its full and fair value; and in 1872, an act was passed requiring the Comptroller to have the assessors' oaths printed in full upon the blanks furnished to the boards of assessors, upon which to make their returns of ratables, and providing that no return should be deemed to have been made according to law unless said oath should have been taken and subscribed by each member of the board of assessors. The returns were made, notwithstanding this law, in a great many instances without being sworn to, and bearing no evidence of the valuation having been made upon any other principle than before.

In 1872 an act was passed providing that not only should no return be deemed legal which was not sworn to by each assessor, but that no assessor should receive compensation for his services who had not taken the required oath. This had no perceptible effect, except perhaps to illustrate the fact that the laws of the State prescribing the duty of the assessor, and requiring him to perform it in any other than the way most convenient to himself and economical to his neigh-

bors are practically useless unless some means can be devised to enforce them. This being the case it would perhaps be an act of wisdom to repeal these laws rather than to allow them to remain upon the statute book, serving no other purpose than to show from year to year how glaringly and with what impunity the laws of the State may be ignored or violated. I still think, however, that the remedy lies in the adoption of an entirely different system—a system under which all the property in each county shall be valued by a board of commissioners in such a manner as to prevent inequalities between the several subdivisions of the county, such valuations to be afterwards submitted to a board of commissioners acting for the whole State, who shall so adjust the county valuations as to make them bear a fair and equitable relation to each other.

This subject is one of interest to every citizen of the State and especially so to the inhabitants of those townships and counties in which a proper and fair valuation of property is attempted, inasmuch as they by their fairness and compliance with the law add to their burden of taxation, and the temptation to violate the law grows stronger with each year, not only from the force of example but as a measure of self-protection. There can be no doubt that a portion of the approaching session will be well spent if devoted to the consideration of this subject, with a view to devising a method free from the evils inseparable from the present imperfect and objectionable system. Indeed, should this question in its financial aspect not present sufficient claims to engage the attention of the Legislature, there is a question of State pride involved which furnishes sufficient ground for a prompt application of some remedy for the evil. The geographical position of our State, and our internal resources are such that the actual value of our property must necessarily increase from year to year, but the policy pursued in many counties of annually reducing their valuations to escape taxation is a practical denial of an obvious fact, and while we are accustomed to boast of and feel a just pride in the increasing wealth and prosperity of our State, we do not hesitate to publish each year in our abstract of ratables a flat contradiction to our proud assertions.

At the legislative session of 1873 an act was passed providing for the levying of "a county and municipal tax" upon the real property in this State occupied, used or owned by railroad companies. Under the provisions of this act a State Commissioner of Railroad Taxation was appointed who was required to "make, certify under his hand, and return to the State Comptroller a statement and valuation of all the said property," which statement has been filed in this office and is "subject to public inspection" as required by law.

The coal needed for the Legislature was not advertised for, owing to the impossibility referred to in my last report, of estimating the

quantity which would be required, under the new arrangements, for heating the State House. A partial supply has been secured by purchase at the mines, and in view of the difficulty of estimating the required quantity, together with the fact that better coal can be procured at a much less cost by purchasing directly from the mines, I again recommend the repeal of the law providing for the annual advertisement for proposals.

Copies of the abstracts of ratables received from the several counties for the year 1873 will be found appended to this report.

All of which is respectfully submitted.

**REPORT**

**CONCERNING INOPERATIVE ACTS.**

---

---

## REPORT.

---

The following report was made July 31, 1873, to the Governor, in compliance with an act of the Legislature, approved March 3, 1873 :

STATE OF NEW JERSEY, }  
OFFICE OF COMPTROLLER OF THE TREASURY, }  
TRENTON, July 31, 1873.

*To His Excellency Joel Parker, Governor of New Jersey :*

SIR:—In compliance with the sixth section of an act entitled “An Act providing for decreeing and making known that certain laws and joint resolutions have become inoperative and void,” approved March third, A. D. eighteen hundred and seventy-three, I have the honor to transmit herewith a list containing the title and date of passage or approval of every law approved since the eighteenth day of March, A. D. eighteen hundred and fifty-nine, which has become inoperative and void for the reason that the parties interested therein have failed to pay the sum assessed thereon, and declared to be payable on the same, according to the requirements of the act entitled “An Act to increase the revenue of the State of New Jersey,” approved March sixth, A. D. eighteen hundred and fifty-eight, and the supplement thereto, approved March eighteenth, A. D. eighteen hundred and fifty-nine.

It has been deemed advisable to make a separate list of the charters of such Savings Banks and Loan Associations as have not paid an assessment upon their acts of incorporation, inasmuch as it has been claimed by some of these corporations that they are exempt from assessments under that provision of the act of eighteen hundred and fifty-nine which exempts from the operations of the act such private acts as refer to “benevolent” and “charitable” institutions ; though this claim, so far as I am aware, has not been made the subject of a legal decision, and may be said to be of doubtful validity.

Respectfully submitted,

A. L. RUNYON, *Comptroller.*

## TITLES OF ACTS AND DATE OF APPROVAL.

---

An act to consolidate the Bergen Point and Staten Island, and Constable's Hook and New York Ferry Companies; approved March 23, 1859.

An act to incorporate the Titusville Delaware Bridge Company; approved January 31, 1860.
